CRITZ IF YOU ARE REALLY OPPOSED,

JOIN BURNS IN SUPPORT OF *REPEAL IT!*

WASHINGTON, PA- Nancy Pelosi's liberals in the House just passed their bill that will result in the government takeover of our healthcare system. After weeks of silence, Mark Critz was finally forced to answer where he stands on the bill by Capitolwire. However, Critz would only state that he would "likely" vote against the bill because of insufficient guarantees to prevent federal funding for abortions and concern over hospital reimbursement funding. In an effort to appease special interest groups and Nancy Pelosi, Critz did admit to otherwise supporting Obamacare which is not surprising since he worked to pass the bill in November and is a supporter of government run healthcare.

"Critz offers a hollow explanation with a tentative promise of 'likely' being against the bill. If he is serious about making sure Nancy Pelosi and the liberals don't allow for taxpayer funded abortions and fighting for the constituents of this district, he should join me in signing a pledge to repeal the bill," challenged Burns. "Voters deserve better than weak statements regarding policy and are in need of a strong Congressman who will stand-up to Barack Obama and Nancy Pelosi in Washington."
